About Me

Computer Science Economics student focused on full-stack web development. Hands-on experience in JavaScript, React, Next.js, and TypeScript through 7+ personal projects, several deployed to production. Competencies in enterprise systems (Mendix, Microsoft Dynamics AX) developed through university programming clubs. LEADERS certified with demonstrated team collaboration and problem-solving skills. Passionate about modern technologies and seeking growth opportunities in the tech industry.

Technical Skills

Programming Languages
- JavaScript – Intermediate
- TypeScript – Intermediate
- C# – Beginner/ Intermediate
- Java – Beginner/Intermediate
- C++ – Beginner

Databases
- SQL/PostgreSQL – Beginner/Intermediate
- MongoDB – Beginner
- Prisma – Beginner

Frameworks and Libraries
- React – Beginner/Intermediate
- Angular – Beginner
- Next.js – Intermediate
- TailwindCSS – Beginner/Intermediate

Tools and Platforms
- Git/GitHub – Intermediate
- Wordpress – Beginner/Intermediate
- Microsoft Office - Beginner/Intermediate
- Jira – Beginner
- Mendix Low-Code Platform – Intermediate,
- WinMentor Enterprise – Beginner
- Microsoft Dynamics AX (Axapta) – Beginner

Development Concepts
- Full-Stack Development – Intermediate
- RESTful APIs – Intermediate
- Database Design – Intermediate
- Responsive Web Design – Intermediate
- Version Control – Intermediate,

Methodologies
- Agile/Scrum – Intermediate
- Kanban – Beginner

Projects

„E-commerce Application" | Next.js, MongoDB | GitHub
- Full-stack e-commerce platform with modern TypeScript implementation
- Product catalog, shopping cart, and user management features
- Built with Next.js for optimal performance and SEO
- Link: https://github.com/AlinV15/FloweringStoriesApp---ecommerce-app.

„Restaurant Management App" | Next.js, Prisma, PostgreSQL | GitHub
- Complex web application for restaurant inventory and operations management
- Features: inventory tracking, consumption monitoring, order processing, supply chain management
- Full-stack solution with database integration and admin dashboard
- Link: https://github.com/AlinV15/Restaurant-management-App-using-Next.js-Prisma-and-PostgreSQL.

„QuotezApp - Quote Management Platform" | React, Express, MongoDB | GitHub
- CRUD operations: create, view, edit, and delete quotes with personalized collections

- Complete full-stack implementation with database integration
- Link: https://github.com/AlinV15/QuotezApp.

„Todo Application" | Next.js, MongoDB| GitHub
- Task management application with Kanban functionality
- User authentication and personal task organization
- Link: https://github.com/AlinV15/Todo-App-with-Next.js

„Angular Web Application" | Angular, TypeScript | GitHub
- University collaborative project demonstrating Angular framework proficiency
- Team development experience with version control
- Link: https://github.com/AlinV15/Proiect-Web-App-with-Angular

„RoomieFinder Application" | Next.js, Prisma, PostgreSQL | GitHub
- User management project for students seeking roommates
- Key features: authentication, roommate management, room management
- Link: https://github.com/AlinV15/Roomie-app.
-
„Personal Portfolio Website" | HTML, CSS, JavaScript | GitHub - Site web
- Interactive personal website showcasing creative web development skills
- Custom animations and responsive design implementation
- Link: https://github.com/AlinV15/MyWebsite

Non-Technical Skills

Communication and Collaboration:
- Teamwork – Intermediate,
- Effective Communication – Intermediate,
- Active Listening – Intermediate,
- Project Presentation – Intermediate,
- Public Speaking – Beginner,

Management and Organization:
- Time Management – Intermediate,
- Planning and Organization – Intermediate,
- Attention to Detail – Advanced,
- Punctuality – Intermediate,
- Meeting Deadlines – Intermediate,

Thinking and Problem Solving:

- Debugging și Troubleshooting – Intermediate,
- Analytical Thinking – Intermediate,
- Logical Thinking – Advanced,
- Problem Solving – Intermediate,

Personal Development:
- Adaptability – Advanced,
- Resilience – Advanced,
- Continuous Learning – Advanced,
- Analytical Thinking – Intermediate,

Leadership and Initiative:
- Taking Initiative – Intermediate,
- Problem Solving – Intermediate,
- Helping Colleagues – Intermediate,
- Creative Thinking – Intermediate,
- Motivation and Dedication – Advanced.

Professional Experience

October 2022 – October 2023 *1 an*	**Active Volunteer - ASFI (French Students Association Iași)** | *Iași | Social and cultural activities* - Active participation in association projects - Co-coordination of "Défi pour la littérature" project - Co-coordination of activities (ticket sales and outdoor film events) - Participation in ANOSR training in Fundraising and Project Management
Codeless Programming Club | March 2025 - May 2025	- Learning the Mendix low-code platform - Developing basic projects using the platform
WinMentor Programming Club | March 2025 - May 2025	- SQL code integration for displaying specific columns - Developing custom templates in WinMentor Enterprise application

Education

University Education	Completed courses: *Microeconomics, Applied Mathematics in Economics, Information Technologies in Business, Fundamentals of Accounting, Business Law, French for Business 1 and 2, Fundamentals of Statistics, Software Tools for Business, Financial Accounting, Management, Macroeconomics, Programming I, Marketing, Office Information Systems, Finance, Econometrics, French for Business 3 and 4, Algorithms and Programming Logic, Database I, Money and Credit, Specialized Practice, Operations Research, Groupware, Computer Networks I, Programming II, Electronic Commerce, Information Systems Analysis, Financial-Accounting Management of Enterprises, Information Systems Design, Information Systems Security, Website Development, e-Marketing, ERP, Economic Projects in Computer Science.*
September 2022 – Present **Faculty of Economics and Business Administration "Alexandru Ioan Cuza" University of Iași Specialization: Computer Science Economics**	
High School Education | *September 2018 – June 2022* **"Vasile Sav" Technological High School Roman Specialization: Automation and Computer Technology**	Studied subjects: *Organic Chemistry, Introduction to C++, Digital Electronics, Analog Electronics* ➢ **Inorganic Chemistry Competition -- Mention (9th grade)** ➢ **Mathematics Competition -- Mention (12th grade)**

Courses and Certifications

Microsoft Dynamics AX (Axapta) - User Certification | 2025
  - Certification in using Microsoft Dynamics AX application
  - ERP system operation and business process management

Learn C# Course - Codecademy | December 2023
Certificate of Completion | Certificate ID: 90AEA8BA-E
  - Successful completion of all Learn C# Course materials
  - Consolidation of object-oriented programming knowledge
  - Development of skills in advanced C# syntax and concepts

LEADERS Explore - Leadership Certificate | December 2023
Certificate ID: LDRS03090/12/21/2023
Developed Competencies:
  - Problem Solving and Decision Making
  - Taking Initiative and Self-Leadership
  - Critical Thinking and Personal Efficiency
  - Emotional Intelligence and Communication
  - Self Awareness and Teamwork

The program developed essential leadership skills, critical thinking, and team management in professional environments.

Foreign Languages

French	B1-B2 Level
English	A2-B1 Level

Additional Information

I constantly develop an analytical and strategic mindset through the unique combination of studying specialized literature, playing chess, and engaging in team sports. These diverse passions consolidate my problem-solving abilities, long-term planning, and efficient collaboration skills. Attracted to intellectual challenges and creative projects, I actively invest in developing technical and interpersonal competencies, constantly seeking innovative ways to contribute to quality software solutions.
